## About

With my background in user experience design, I have a strong focus on front-end development. Even though I don't shy away from difficult technical matters, I always love working on the customer-facing side of digital applications. I chose to work with Mendix because it allows me not only to create apps, but also work closely together with business to investigate business requirements and translate them into amazing applications.

I've worked on several Mendix projects, but have also undertaken side activities such as marketing and pre-sales. I have an indepth knowledge of Mendix, including the ability to write custom widgets or Java actions, and working on the CI/CD pipeline. I love undertaking these activities and seeing the positive results in the end.

## Work

### Finaps BV

Feb 2018 – Present

Senior Business Engineer

[finaps.nl](https://finaps.nl)

During my time at Finaps, I've quickly grown into the senior business engineer role. I've been involved in many projects within the company, each time in a different role. From sole developer on small applications, to larger Mendix apps in complex landscapes, to large-scale digital transformation journeys for multinationals.

- Siemens
- Quion
- Argenta
- Rabobank IDB
- BringWay
- UMC Utrecht
- Rijkswaterstaat

- My Finaps

## Bakker & Spees

Feb 2016 – May 2017

User Experience designer and front-end developer

[bakkerspees.nl](http://bakkerspees.nl)

For my Master's, I took on an internship to perform a UX design analysis on existing VISI software. After obtaining my degree, I stayed with the company to apply best practices from my research into the application.

## Various restaurants

Jan 2009 – Jan 2012

Waiter/kitchen staff

During this period, I worked for several restaurants where I either waited tables and worked the kitchen. Although you could argue that this experience is hardly relevant for my current field of work, I think they greatly defined who I am as a person and my passion for cooking.

## Education

### University of Amsterdam

Sep 2011 – Jul 2014

🎓 Master's degree

Human Centered Multimedia

### Utrecht University

Sep 2011 – Jul 2015

🎓 Bachelor's degree

Liberal Arts & Sciences

### Haags Montessori Lyceum

Sep 2004 – Jul 2010

🎓 High school

Cultuur & Maatschappij

## Certificates

### Professional Scrum Master I

Feb 2019

Issued by [scrum.org](http://scrum.org)

### Mendix Expert

Jun 2021

Issued by Mendix

### Mendix Advanced

Dec 2018

Issued by Mendix

## Skills

### Development

Mendix HTML CSS  
Javascript
